The New Classic in Men's Suits and Jackets

Slow Fashion Cycles. Men's fashion cycles move much slower than women's. Most of the key looks in stores will be in style for the next several years, which is great because if you buy quality

workmanship in a suit, jacket or slacks, you can wear them for years. Although society has become much more casual through the years, I am going to address just men's suits and jackets in this article.

Classic Styling is Back. The classic cut is interpreted a bit differently. You are looking for a slimmer cut - not overly boxy or overly skinny. Think of a classic suit that accents a sense of the masculine through three key silhouette elements: broad shoulders, a slim waist and slim trousers. With classic fabrics and patterns, you can move into more interesting color combinations than navy, black and grey.

Single-Breasted Jackets. The dominant style is the single-breasted suit. For a more conservative look, look for slim to medium width notched or shawl lapels. For extra flair, wear peaked lapels. A good

look for a two piece suit or sports coat is to add a cotton or wool sweater vest. Another popular look for sport coats is a rolled shoulder, following a more natural shoulder line. This look still has a slimmer waist but not as slim as what's on trend in the classic suit. Right now two-button styles are the most popular, although one button closer to the waist is on trend now. The three-button suits that convey a slim waist also work.

Double Breasted Jackets are back in style, but not in the boxier shapes. Look for styles that broaden the shoulders and slim the waist. Look for peaked lapels in this cut.

Three Piece Suits have made a big comeback. This look is cohesive, meaning that the vest needs to exactly match the jacket and pants fabric. Look for a vest whose V-shape breaks somewhere between the sternum and the base of the rib cage. A higher vest won't help with the slim waist look.
